

LA FORNACE DA VASAIIO TM IB DI HAGHIA TRIADA.
LE CERAMICHE E IL SISTEMA DI PRODUZIONE,
DISTRIBUZIONE E CONSUMO

DARIO PUGLISI

ABSTRACT

This study provides a complete and updated edition of the pottery recovered during Levi and Laviosa's excavation of the LM IB kiln at H. Triada and, on the basis of a reassessment of old and new data concerning pottery production in the LM I western Mesara (including Linear A tablet HT 31), proposes a reconstruction, as complete as possible, of the intra- and extra-site system of production, distribution and consumption into which the kiln was inserted.
